

CS492 Logbook - Kerem Dem

[22/Jan/2026]

We had a team meeting where we went over how the CS491 demo went, agreed on the implementation roadmap for Mentora, and split up responsibilities for the semester.

[22/Jan/2026]

I took responsibility for the scheduling and study modules on the frontend: the weekly schedule grid, course management, study session flows, and the home dashboard. I also picked up general bug fixing and quality improvements across the whole frontend codebase.

[29/Jan/2026]

Weekly team meeting. We talked about frontend-backend integration. Everybody attended.

[2/Feb/2026]

Worked with the team on structuring the React Native frontend. Planned the Schedule and Study screens and the home dashboard layout.

[5/Feb/2026]

Weekly team meeting. We reviewed where each module was and agreed to push chat through as a feature. Everybody attended.

[7/Feb/2026]

Built the first version of the weekly schedule grid in the schedule.tsx.

[12/Feb/2026]

Progress meeting with our supervisor Uğur Güdükbay.

[19/Feb/2026]

Weekly team meeting. We talked about the current state of the project. Everybody attended.

[21/Feb/2026]

Cleaned up study session persistence and time tracking. Fixed the elapsed time so that it is preserved when the user navigates away, and that completed sessions get reported to the backend correctly.

[26/Feb/2026]

Weekly team meeting. We discussed the notification system design and how scheduling events should show up on the home screen. Everybody attended.

[3/Mar/2026]

Meeting with our supervisor Uğur Güdükbay.

[10/Mar/2026]

Wrote my parts of the Detailed Design Report.

[12/Mar/2026]

Submitted the Detailed Design Report.

[19/Mar/2026]

Weekly team meeting. We talked about the next phase of work and what to refine. Everybody attended.

[26/Mar/2026]

Weekly team meeting. We did UI testing across different devices and platforms. Everybody attended.

[16/Apr/2026]

Weekly team meeting. I presented the bugs I found while testing. Everybody attended.

[27/Apr/2026]

Meeting with our supervisor Uğur Güdükbay. We demoed the final system.

[28/Apr/2026]

Last round of UI improvements on the schedule and study modules.

[30/Apr/2026]

Started on the Final Report. My part was the test cases and the user manual.

[3/May/2026]

Final pass over the report.
